

## Support the National Strategy for Financial Literacy

Aiming to build a financially literate population is a hugely ambitious goal. This outcome cannot be achieved by one organisation alone. The involvement of the public, private and voluntary sectors is necessary for implementation to be successful. Many organisations have endorsed the Strategy and support working together to achieve the Strategy's mission statement that:

*New Zealanders are financially well-educated and can make informed financial decisions throughout their lives.*

If you would like to become a supporter of the National Strategy for Financial Literacy, please complete the following:

Name \_\_\_\_\_

Position \_\_\_\_\_
